QUESTION NO: 7

Click the Exhibit button to begin.

You're configuring Search Policies for your eDirectory tree. You don't want policies in the tree to be applied to users in your Information Systems container (IS.SLC). To do this, you've implemented a container policy package on the IS.SLC container and set the Search Level to 1. However, you've discovered that when you authenticate as JJackson.IS.SLC from a Windows XP workstation, desktop preferences contained in a user policy package associated with the SLC
