### QUESTION 1

An administrator needs to deliver secure virtual desktops with access to IT resources for offshore contract employees. Since the employees are far from the office, the administrator must ensure a seamless user experience, as the company will not deploy additional resources for these users.

Which solution offers the functionality required by the company?

- A. VMware vRealize Automation
- B. VMware Horizon Desktop as a Service
- C. AirWatch Secure Content Locker
- D. VMware Horizon (with View)

**Answer: C**

### QUESTION 2

An administrator receives a trouble ticket reporting a low vRealize Operations for Horizon 6 score value on an object (for example, 15 out of 100). Which course of action should the administrator recommend?.

- A. The value indicates a severe problem state, a red badge, and this should be investigated immediately.
- B. The value indicates a normal state and since there are no real Issues or current problems, no action should be taken.
- C. The value indicates a less severe state, a yellow badge, however this object should be monitored and should be flagged for investigation if the value changes.
- D. The value of a badge must be correlated with the color of the badge to determine if the state is normal or if there is a potential problem.

**Answer: D**

### QUESTION 3

Which statement represents a significant advantage of using vRealize Operations for Horizon 6?

- A. The administrator's monitoring window flashes with a colored surround immediately an issue or

problem occurs in their virtualized environment.

B. Performance issues and problems appear as color coded pop-ups on an administrator's management window.

C. Administrators can receive color coded emails indicating the severity of issues or problems in their virtualized data centre.

D. Smart alerts are generated when performance data of monitored objects deviates from acceptable norms, or when a problem occurs.

**Answer: D**

#### **QUESTION 4**

You are responsible for providing access to a corporate desktop for selected contractors. The contractors should be prevented from installing software on their laptops. Which solution provides the easiest way to meet these requirements?

A. Email the IT administrator for the contractor's organization and ask them to provide the contractors administrative access so they can install the View client on their laptops.

B. Email the IT administrator for the contractor's organization and ask them to Install a View client on their laptops.

C. Give each contractor a new desktop machine with restricted rights.

D. Give the contractors access to View desktops that have the HTML Access Feature Pack enabled.

**Answer: C**

#### **QUESTION 5**

A manager is planning next year's budget and is concerned that desktop computers cost too much money for the length of time they are able to be used. The manager wants a solution that is not just simple, but one that will last for years with little required maintenance.

Which type of business challenge is the manager being faced with?

- A. Security
- B. Management
- C. Accessibility
- D. Application

**Answer: C**

#### **QUESTION 6**

An administrator wants to minimize the load caused by virtual desktop traffic. In order to maximize performance on an excessively taxed infrastructure, which type of business challenge is the administrator faced with?

- A. Availability
- B. Security
- C. Application
- D. Management

**Answer: B**

#### **QUESTION 7**

An administrator has received complaints from several mobile and remote branch office users regarding performance. Users report extremely slow access when connecting to the company VPN to take backups and snapshots.

Which solution overcomes this issue and allows end users to backup and synchronize devices to the data center without a VPN?

- A. VMware Horizon Security Server
- B. VMware View Composer
- C. VMware Mirage Gateway
- D. VMware vRealize Automation
