QUESTION NO: 1

In what way, unique in its industry, does Cisco leverage the power of the network?

- A. by deploying Cisco network management solutions for maximum investment protection
- B. by enabling stateful firewall and intrusion prevention services solutions
- C. by tunneling accelerated traffic through QoS
- D. by enabling IOS technology such as QoS to integrate with Cisco WAAS

Answer: D

QUESTION NO: 2

What are the two Cisco IOS services or features that Cisco WAAS preserves in the network?

- A. MPLS
- B. NetFlow
- C. CEF
- D. QoS
- E. ISIS

Answer: B,D

QUESTION NO: 3

Which of these is effective at reducing the amount of network latency and number of delays caused by chatty protocols?

- A. firewall solution
- B. WCCPv2
- C. content filtering
- D. intelligent proxies

Answer: D

QUESTION NO: 4

Cisco WAAS overcomes performance limitations caused by which three factors? (Choose three.)

- A. WAN bandwidth
- B. server consolidation
- C. latency

-
- D. packet loss
 - E. application acceleration
 - F. Fiber Channel switches

Answer: A,C,D

QUESTION NO: 5

Which optimization technique is applied at the transport layer?

- A. Data Compression Elimination (DCE)
- B. TCP
- C. QoS
- D. Data Redundancy Elimination (DRE)

Answer: D

QUESTION NO: 6

What are two responses you should give to a customer that would like to improve application uptime? (Choose two.)

- A. Consolidate your branch office infrastructure.)
- B. Deploy a smaller number of application servers by virtualizing your server farms.
- C. Solutions offered by Cisco provide many configuration options for intelligent failover and redundancy.
- D. Solutions offered by Cisco may be used to improve application uptime
- E. Cisco CSS and ACE enable servers to be added or maintained without service disruption.

Answer: C,E

QUESTION NO: 7 DRAG DROP

Drop

Click and drag the IT decision maker or team on the left to its decision making area on the right.

network operations	integration, deployment, and manageability
IT director	cost, application performance, and Windows integration
applications	application performance, and security
server and storage devices	uptime, CapEx, OpEx, TCO

ActualTests

Drag and drop question. Drag the items to the proper locations.

Answer:

Drop

Click and drag the IT decision maker or team on the left to its decision making area on the right.

network operations	network operations
IT director	server and storage devices
applications	applications
server and storage devices	IT director

ActualTests

Drag and drop question. Drag the items to the proper locations.

Explanation:

network operations	network operations
IT director	server and storage devices
applications	applications
server and storage devices	IT director

ActualTests

QUESTION NO: 8

Which type of Cisco WAAS redirection method can only provide redundancy for up to four next-hop WAE appliances?
