## QUESTION 1

### Case Study

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other question on this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next sections of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question on this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

### General Overview

Litware, Inc., is an international manufacturing company that has 4,000 employees. The company has a sales department, a marketing department, a research department, and a human resources department. Litware has a partner company named Fabrikam, Inc. Fabrikam has an office in Paris. Fabrikam uses a XMPP-based instant messaging (IM) solution.

### Physical Locations

Litware has seven offices located throughout North America and Europe.

Litware has two data centers. The data centers are located in New York and London. All communications for the North American offices are routed through the New York data center. All communications for the European offices are routed through the London data center.

---

The number of users in each office is shown in the following table.

Office location	Number of users
New York	1,500
Miami	50
Los Angeles	60
London	1,500
Frankfurt	50
Barcelona	75
Amsterdam	80

#### Active Directory Environment

Litware has an Active Directory Domain Services (AD DS) forest named litwareinc.com. The forest contains a single domain. All domain controllers run Windows Server 2008 R2.

Each office contains five domain controllers. Each office is configured as an Active Directory site.

#### Lync Server Environment

Litware has a Lync Server 2013 infrastructure that contains two servers in the New York office. The servers are configured as shown in the following table.

Server name	Role
Lync1	Standard Edition Front End Server
Lync2	Edge Server

The SIP domain is litwareinc.com.

Litware has a Microsoft Exchange Server 2013 organization.

#### Problem Statements

Users in the London office report poor video quality during conferences.

#### Requirements

#### Business Goals

Litware wants to minimize the costs associated with purchasing hardware and software.

#### Planned Changes

Litware plans to migrate the Lync Server 2013 infrastructure to Skype for Business Server 2015. The migration will have a coexistence period of six months.

Litware plans to implement the following components as part of the planned migration:

#### Persistent Chat

---

Unified contact store

Enterprise Voice for all users

A central site in each data center

A branch site in each branch office

A Front End pool in each central site

Skype for Business Phone Edition devices

Pool pairing

Litware plans to create a federation relationship with Fabrikam.

#### Technical Requirements

Litware identifies the following technical requirements for the planned migration:

Users must be able to use all Skype for Business Server features if a single server fails.

Users must be able to connect to the Skype for Business Server infrastructure if a single central site fails.

Members of a group named Temp\_Contractors must be prevented from using Skype for Business when they connect remotely.

Only users in the human resources department must be able to access and discover a persistent chat room named HRConfidential.

#### Security Requirements

Litware plans to deploy remote access. Some users work remotely from their customers' offices, which have firewall restrictions. All of the remote users must be able to connect to the Skype for Business Server 2015 infrastructure by using TCP port 443.

You have a Skype for Business Server 2015 environment. You plan to deploy a Persistent Chat server.

You need to create the chat room for the Human Resources department.

Which three actions should you recommend? To answer, move the three appropriate actions from the list of actions to the answer area and arrange them in the correct order.
