---

**QUESTION NO: 1**

You are employed as a software tester at ABC.com. ABC.com has a single Active Directory domain, named ABC.com. ABC.com makes use of Microsoft Visual Studio 2012 for development purposes.

You have been informed that a requirement has been removed. You are then instructed to change the state of multiple corresponding test cases so that the removal is shown.

You are preparing to run the necessary query.

Which of the following is the application that you should run the query from?

- A. Microsoft Test Manager
- B. Web Access
- C. Bugs Dashboard
- D. Microsoft Word

**Answer: B**

**Explanation:**

**QUESTION NO: 2**

You are employed as a software tester at ABC.com. ABC.com has a single Active Directory domain, named ABC.com. ABC.com makes use of Microsoft Test Manager (MTM) for testing purposes.

You have previously configured the use of the Microsoft Solution Framework (MSF) for Agile Software Development process template for ABC.com's environment. You are preparing to execute the Bug Trends report.

Which of the following is the reason for executing this report?

- A. To help track the rate at which your team is discovering and resolving bugs.
- B. To list all user stories.
- C. To monitor test activities and report on the team's overall test progress.
- D. To determine how many test cases have been defined and are ready to run.

**Answer: A**

**Explanation:**

---

**QUESTION NO: 3**

You are employed as a software tester at ABC.com. ABC.com has a single Active Directory domain, named ABC.com. ABC.com makes use of Microsoft Test Manager (MTM) for testing purposes.

You have been tasked with running tests against a Windows Presentation Foundation rich client application. You are preparing to identify the tests that you can execute. To do this you are making use of the Recommended tests feature.

Due to no recommended tests being presented when a new build is chosen, you determine that the Recommended tests feature must still be activated.

Which of the following actions should you take?

- A. You should consider configuring the Action Log data collector.
- B. You should consider configuring the Test Impact data collector.
- C. You should consider configuring the Event log data collector.
- D. You should consider configuring the Trace Log data collector.

**Answer: B**

**Explanation:**

**QUESTION NO: 4**

You are employed as a software tester at ABC.com. ABC.com has a single Active Directory domain, named ABC.com. ABC.com makes use of Microsoft Test Manager (MTM) for analytical testing purposes.

You are currently running a test that should show a copy of the display in the comment area for the run. Your solution should require as little administrative effort as possible.

Which of the following actions should you take?

- A. You should consider making use of the Add screenshot tool.
- B. You should consider making use of the Paint app.
- C. You should consider making use of Microsoft PowerPoint.
- D. You should consider making use of Microsoft Office Picture manager.

**Answer: A**

**Explanation:**

---

**QUESTION NO: 5**

You are employed as a software tester at ABC.com. ABC.com has a single Active Directory domain, named ABC.com. ABC.com makes use of Microsoft Test Manager (MTM) for testing purposes.

You are in the process of running a manual test with the option to generate an action recording selected. You want to exit the test runner, so you have to suspend the test run.

You are required to make sure that the test case is identified as in progress prior to exiting the runner.

Which of the following actions should you take?

- A. You should consider selecting the Disabled option.
- B. You should consider selecting the Return to Testing Center option.
- C. You should consider selecting the Idle option.
