Windows 7, Configuring

DEMO

QUESTION 1

Your network consists of an Active Directory domain and a DirectAccess infrastructure.

You install Windows 7 on a new portable computer and join the computer to the domain.

You need to ensure that the computer can establish DirectAccess connections.

What should you do?

A. Install a computer certificate.
B. Create a new network connection.
C. Enable the Network Discovery firewall exception.
D. Add the computer account to the Network Configuration Operators group.

Answer: A

Question 2

You have a portable computer named Computer1 that runs Windows 7.

You have a file server named Server1 that runs Windows Server 2008. Server1 contains a shared folder named Share1.

You need to configure Computer1 to meet the following requirements:

- Ensure that cached files from Share1 are encrypted.
- Ensure that files located in Share1 are available when Server1 is disconnected from the network.

What should you do?

A. On Server1, encrypt the files in Share1. On Computer1, make Share1 available offline.
B. On Server1, configure BitLocker Drive Encryption. On Computer1, make Share1 available offline.
C. On Computer1, make Share1 available offline and enable encryption of offline files.
D. On Computer1, copy the files from Share1 to the Documents library and configure BitLocker Drive Encryption.

Answer: C

Question 3

You have a computer named Computer1 that runs Windows Vista and a computer named Computer2 that runs Windows 7. You plan to migrate all profiles and user files from Computer1 to Computer2.

You need to identify how much space is required to complete the migration.

What should you do?

A. On Computer1 run Loadstate c:\store /nocompress
B. On Computer1 run Scanstate c:\store /nocompress /p
C. On Computer2 run Loadstate \\computer1\store /nocompress
D. On Computer2 run Scanstate \\computer1\store /nocompress /p

Answer: B

Question 4

You work in an international company which is named Wiikigo. Before entering this company, you have two years of experience in the IT field, as well as experience implementing and administering any Windows client operating system in a networked environment.
