**QUESTION NO: 1**

A task has been developed which upgrades the corporate VPN client to the latest version. The administrator is required to Take Action on this task while giving end users the option of whether or not they would like to install this version. How is this accomplished?

- A. Offer tab of the Take Action dialog
- B. Messages tab of the Take Action dialog
- C. Pre-Action tab of the Take Action dialog
- D. Notification tab of the Take Action dialog

**Answer: B**

**QUESTION NO: 2**

An operator would like to take an action on all endpoints connected to a specific relay. Which targeting mechanism should an operator select in order to efficiently target systems by relay?

- A. target by analysis
- B. enter device names
- C. dynamically target by property
- D. select endpoints from the computer list

**Answer: C**

**QUESTION NO: 3**

Patch Management for AIX has various methods for obtaining updated files. Which native AIX method can IBM Endpoint Manager integrate with?

- A. AIX Download plug-in
- B. AIX Download Cacher

- 
- C. Yellowdog Update Manager (YUM)
  - D. Network Installation Management (NIM)

**Answer: D**

#### **QUESTION NO: 4**

How is a manual group defined?

- A. A Fixlet group that is created by an operator.
- B. A computer group whose members are static.
- C. A Fixlet group that can only contain Windows patches.
- D. A computer group that can only be used to deploy Windows patches.

**Answer: B**

**Explanation:**

#### **QUESTION NO: 5**

A non-master operator has rights to create custom content and to access all the sites in the deployment. She creates a baseline to deploy a variety of software packages to newly imaged workstations. This baseline becomes relevant when a custom client setting is `new_workstation = true`. She tests the baseline on two freshly imaged machines that have the custom client setting and everything works fine. She tells her team the baseline is ready to go, but members of her team report they cannot use the baseline. The master operator can see the baseline but cannot deploy it. What is wrong?

- A. Baselines are not used for software deployment.
- B. Custom client settings are IBM Endpoint Manager user-specific.
- C. She forgot to publish the baseline in a custom site where it can be shared.
- D. Only the person with custom content rights can deploy the content they create.

**Answer: B**

**Explanation:**

---

**QUESTION NO: 6**

When viewing the list of Fixlets and tasks, some are black and others are gray. What does this mean?

- A.** The black entries are required to be deployed to at least one computer, and the gray entries are optional.
- B.** The gray entries are required to be deployed to at least one computer, and the black entries are optional.
- C.** The gray entries are relevant to at least one computer, and the black entries are not relevant to any computers.
- D.** The black entries are relevant to at least one computer, and the gray entries are not relevant to any computers.

**Answer: D**

**Explanation:**

**QUESTION NO: 7**

Which two statements best describes a retrieved property in IBM Endpoint Manager?

- A.** A valid property must contain string results.
- B.** A property consists of a definition and a result.
- C.** A property must reside in a non-master operator site.
- D.** A valid property must contain four or more different data formats at the same time.
- E.** A property is a system or configuration attribute reported by the client to the server.

**Answer: A,E**
