Answer: B

Explanation:

QUESTION NO: 6

Josh needs to associate the Price and ProductName fields of the Sales database with fields from the Inventory table in a relational database. His company uses DECS. He has created a Data Connection Resource to handle the connection to the Inventory table. What is the next step to

make this connection available to fields on the Product form?

- A.** From the Advanced tab of the ACL, select "Allow connection to external databases using DCRs". From the Defaults tab of the Product form properties dialog, click Browse by the Data Source Options and select the DCR.
- B.** From the Advanced tab of the database Properties, select "Allow connection to external databases using DCRs". From the Data Connection Resource properties, select the Product form under "Connection enabled for?"
- C.** From the Advanced tab of the ACL, select "Allow connection to external databases using DCRs". From the Security tab of the Form Properties dialog, click Browse by the Data Source Options and select the DCR.
- D.** From the Basics tab of the Database properties, select "Allow connection to external databases using DCRs". From the Defaults tab of the Form Properties dialog, click Browse by the Data Source Options and select the DCR.

Answer: D

QUESTION NO: 7

Dierdre is periodically asked to update the Readers field in documents created with the SalesOrder form. If a person's name changes, they are no longer able to access documents they'd been able to access in the past. Dierdre would like the Readers fields to be automatically updated when someone's name has been changed in the Domino directory. How can she do this?

- A.** Open the Security tab of the SalesOrder Form properties. Place a checkmark next to "Enable adminp updates".
- B.** Open the Advanced tab of the database ACL. In the selection list for Action, choose "Modify all Readers and Authors fields".
- C.** Open the Security tab of the Database properties. In the selection list for Administration Actions, choose "Update all Readers and Authors fields".
- D.** Ask a Notes Administrator to enable "Maintain Reader/Author field consistency" on the Security tab of the server document for her application server.

Answer: B
