QUESTION NO: 1

Which statement is true regarding the EX-series file system?

- A. Contents in the /var directory are automatically removed upon a successful software upgrade.
- B. The file system must be cleaned manually after every upgrade.
- C. Contents in the /var directory are automatically archived for future software rollbacks.
- D. The file system must be cleaned manually before every upgrade.

Answer: A

QUESTION NO: 2

Which two statements describe the EX 4200 switches? (Choose two.)

- A. All EX 4200 switches support either partial or full Power over Ethernet (PoE) support.
- B. The fan tray used for the EX 4200 switches is not field replaceable.
- C. The EX 4200 switches support redundant load-sharing AC power supplies.
- D. The EX 4200 switches can be interconnected to form a single virtual chassis.

Answer: C,D

QUESTION NO: 3

Click the Exhibit button.

In the exhibit, what does the asterisk (*) indicate?

```
user@switch> show vlans orange detail
VLAN: orange, 802.1Q Tag: 101, Admin state:
Enabled
Number of interfaces: 2 (Active = 2)
  Untagged interfaces: ge-0/0/13.0*
  Tagged interfaces: ge-0/0/18.0*   ActualTests
```

- A. The interface is configured for PoE.
- B. The interface receives untagged frames.
- C. The interface is up and active.
- D. The interface contains Layer 3 configuration.

Answer: C

QUESTION NO: 4

Which Spanning Tree Protocol is enabled in the factory-default configuration?

- A. STP
- B. PVST
- C. MSTP
- D. RSTP

Answer: D

QUESTION NO: 5

Which statement is true for configuring a link aggregation group?

- A. No more than 10 member links can belong to a link aggregation group.
- B. Link duplex mode and speed must match within a link aggregation group.
- C. Layer 2 and Layer 3 interfaces can be mixed when creating a link aggregation group.
- D. Member links cannot span multiple member switches within a virtual chassis.

Answer: B

QUESTION NO: 6

Which three statements describe benefits of bridging? (Choose three.)

- A. Bridging allows mixed physical media types on a common LAN.
- B. Bridging uses Layer 2 bridge tables to intelligently forward traffic towards its destination.
- C. Bridging logically segments user groups based on administrative policy.
- D. Bridging allows for the creation of multiple broadcast domains.
- E. Bridging can reduce the number of collisions on a LAN.

Answer: A,B,E

QUESTION NO: 7

When configuring a redundant trunk group (RTG) on an interface, which restriction would apply?

- A. The interface must be configured as a Layer 3 interface with an assigned IP address.

-
- B. The interface cannot be configured as a Layer 2 trunk.
 - C. The gratuitous-ARP-reply must be disabled on the interface.
 - D. Spanning Tree Protocol (STP) cannot be configured on the interface.

Answer: D

QUESTION NO: 8

Which two commands are valid for verifying NTP operation? (Choose two.)

- A. show ntp status
- B. show ntp associations
- C. show ntp synchronization
- D. show ntp server

Answer: A,B

QUESTION NO: 9

What describes the way the JUNOS software evaluates a route against a policy?

- A. The JUNOS software evaluates all terms in a policy sequentially. When it finds that the route matches all criteria specified in the match clause of a term, it applies the actions specified in the then clause and stops processing further terms.
- B. The JUNOS software evaluates all terms in a policy sequentially. When it finds that the route matches all criteria specified in the from clause of a term, it applies the actions specified in the then clause and continues processing further terms if the accept action was specified.
- C. The JUNOS software evaluates all terms in a policy sequentially. When it finds that the route matches any criteria specified in the from clause of a term, it applies the actions specified in the then clause and stops processing further terms.
- D. The JUNOS software evaluates all terms in a policy sequentially. When it finds that the route matches all criteria specified in the from clause of a term, it applies the actions specified in the then clause and stops processing further terms.

Answer: D

QUESTION NO: 10

Click the Exhibit button.
